SECTION (1):
GENERAL DESCRIPTION AND BACKGROUND

- (A) **Request for Proposal:** This document constitutes a RFP from qualified organizations to provide information detailing the safety consideration specifications for the truck only and passenger only facilities for I-70 and I-40 in the state of Missouri and related services to MHTC and the Missouri Department of Transportation (MoDOT).
- (B) **Background:** Currently truck-only lanes are being considered for Missouri's busiest interstates, I-70 and I-44. As noted by the following link: <http://www.improvei70.org/> on MoDOT's website, Missouri has an important role in the nation's ability to move freight and support the U.S. economy. Missouri's designation within the federal "Corridors of the Future" program has allowed for MoDOT to fund an Environmental study evaluating the possibility of truck lanes on I-70. The research in this phase one proposal will be an integral part of the broader environmental study.
- (C) **Fiscal Year:** The fiscal year runs from July 1-June 30.
- (D) **Contract Period:** The project contract period will begin the date the agreement is executed by the MHTC and end June 30, 2009 unless otherwise agreed to by the parties.

- (E) **RFP Schedule of Events:** The following RFP Schedule of Events represents MoDOT's best estimate of the schedule that shall be followed. Unless otherwise specified, the time of day for the following events shall be between 7:30 am and 4:00 pm, CST. MoDOT reserves the right at its sole discretion to adjust this schedule, as it deems necessary.

Schedule of Events
MoDOT posts the RFP on August 1, 2008 to the research website: http://www.modot.mo.gov/services/OR/orRFP.htm
Written comments and/or questions must be postmarked and mailed to the Contract Administrator at 2217 St Mary's Blvd., West, PO Box 270, Jefferson City MO 65109 or faxed to 573-526-4324 or submitted electronically to Karmen.Stockman@modot.mo.gov by August 11, 2008 .
MoDOT will post the responses to written comments and/or questions by August 21, 2008 on the research website: http://www.modot.mo.gov/services/OR/orRFP.htm
Deadline for proposal submission is 4:00 PM CST on September 5, 2008 . Please see the Introduction Section for specific mailing and electronic addresses.
MoDOT will notify the preferred proposal Offeror by September 15, 2008 .
The proposed contract end date will be June 30, 2009 unless the parties agree otherwise.

SECTION (2):
SCOPE OF WORK

(A) **Services:** The successful Offeror shall provide the following services:

(1) **Research Objectives:** MoDOT expects this research to determine and analyze the safety issues related to truck only lanes as noted in Section (1), Paragraph (A) entitled Request for Proposal and Paragraph (B) entitled Background.

(2) **Project Requirements:** The following deliverables will be expected:

- a. The following provisions need to be considered and the Offeror will need to be researched and addressed:
 - i. In only a few locations will the truck-only lanes have dedicated ramps and at other locations slip ramps will be used to merge trucks into and out of the truck-only lanes. What distance will these ramps need to be located before the exits to provide trucks adequate distance to merge into traffic and move to the rightmost lane?
 - ii. How far after the exits will slip ramps need to be located to provide trucks adequate distance to merge from the exit to the slip ramp?
 - iii. What safety features can be added to the slip ramps to make it safer for trucks to merge from the left into traffic?
 - iv. What distance would be considered a “local trip” for trucks, i.e. how long should a truck be allowed to remain in the general-purpose lanes?
 - v. How does the Highway Patrol enforce the “local trip only” lanes for trucks?
 - vi. Typically “trucks” are considered anything over 18,000lb. How does the Highway Patrol enforce what is a truck?
 - vii. How can emergency access be provided to emergency responders?
 - viii. Will guard cable be beneficial in the median between traffic moving in the same direction?
 - ix. How does MoDOT promote the safety benefits of truck-only lanes?

- b. Comprehensive literature search on safety considerations of truck only and passenger only lanes.
- c. Surveys of the related emergency and responder personnel in the State of Missouri related to the safety issues for truck only lane implementation as noted in Section (1), Paragraphs (A) entitled Request for Proposal and Paragraph (B) entitled Background.
- d. Comprehensive marketing tools for the promotion and understanding of the safety issues regarding truck only and passenger only lanes in the State of Missouri.

(3) Required Deliverables: The following deliverables will be required by the successful contractor and be delivered to the MoDOT technical contact in electronic format unless otherwise agreed to by the parties:

- a. FHWA quarterly updates as required by federal mandate per MoDOT's annual receipt of federally funded research dollars. These reports shall be submitted to the MoDOT Technical Liaison as noted in Section (3), Paragraph (A):
- b. A draft final report due no later than March 31, 2009 unless otherwise agreed to by the parties. The final report should include:
 - i. A comprehensive literature review in order to provide background information, validate research efforts and impart best practice knowledge.
 - ii. Truck only lane safety and enforcement issues noted in Section (2) Paragraph (A) entitled Services.
 - iii. Survey of the safety related factors and perceptions regarding truck only lanes, according to the related emergency and responder personnel in the State of Missouri.
 - iv. Appropriate implementation suggestions based on qualitative and quantitative safety assessment of truck only lanes.
- c. A marketing tool per elements discussed in Section (2), Paragraph (A) Subsection (1) entitled Research Objectives and Subsection (2) entitled Project Requirements in a format to be agreed upon by the parties, no later than January 31, 2009.
- d. Final report revised with comments from MoDOT technical staff due no later than May 1, 2009 unless otherwise agreed to by the parties. For

sample reports see: <http://www.marc.org/transportation/ogl/pilotprojects.htm>.

- e. Monthly invoices due no later than the 15th of each month and the final invoice due no later than May 15, 2009 unless otherwise agreed to by the parties.
