**SECTION (1):
GENERAL DESCRIPTION AND BACKGROUND**

(A) Request for Proposal: This document constitutes an RFP from qualified organizations to conduct the TR201711 entitled, “Economic Impact Study for Public Ports” study for the MHTC and Missouri Department of Transportation (MoDOT).

(B) Background: Missouri has access to over 1,000 miles of the Missouri and Mississippi Rivers. These natural assets are a vital link to Missouri’s transportation chain. Over 500 million tons of cargo flow on these rivers annually; that is the equivalent of 19 million trucks on the highways. While public ports play an integral role in the transport of freight into and out of Missouri; it can be difficult to quantify the economic impacts ports bring to the state. Many ports rely on state or federal dollars to make infrastructure improvements, but it is difficult to secure these funds without this information.

The objective of this project is to quantify the economic impacts of ports to the Missouri economy. Direct, indirect and induced impacts should be identified and quantified. The economic impact of funding port improvements should be included in the analysis. The following ports should be included in the study:

- Howard/Cooper County Regional Port Authority
- Jefferson County Port Authority
- Port Authority of Kansas City, Missouri,
- Lewis County Regional Port Authority,
- Marion County Port Authority,
- Mississippi County Port Authority,
- New Bourbon Regional Port Authority,
- New Madrid County Port Authority,
- Pemiscot County Port Authority,
- Pike/Lincoln County Port Authority,
- St. Joseph Regional Port Authority,
- City of St. Louis Port Authority,
- St. Louis County Port Authority, and
- Southeast Missouri Regional Port Authority.

A brochure should be developed for each of the above ports. Brochures should be similar to those produced for Missouri airports and can be found here:

<http://www.modot.org/othertransportation/aviation/2012study.htm>

(C) Fiscal Year: MoDOT’s fiscal year runs from July 1-June 30.

(D) Contract Period and Budget: The contract period will run for 12 months.

(E) RFP Schedule: The following RFP Schedule of Events represents MoDOT’s best estimate of the schedule that shall be followed. The time of day for the following events shall be between 7:30 am and 4:00 pm, Central Standard Time. MoDOT reserves the right at its sole

discretion to expand this schedule, as it deems necessary, without any notification except for the deadline date for submitting a proposal.

Date:	Action:
Sept 23, 2016	MoDOT posts RFP to the website: www.modot.mo.gov/services/OR/orRFP.htm
October 11, 2016	Written comments or questions must be submitted to Contract Administrator.
October 19, 2016	MoDOT will post written responses publicly on the website: www.modot.mo.gov/services/OR/orRFP.htm
November 2, 2016	Written proposals must be submitted to the Contract Administrator.
November 15, 2016	MoDOT will notify submitters about project selection, or if needed about interviews to finalize selection.

(F) Project Schedule: The following is an estimate of the project timeline or information on key dates within the project, presuming the project starts on December 15, 2016. Proposals need to include a work plan with a proposed timeline.

December, 2016: A kick off meeting with MoDOT will be scheduled to discuss project requirements and deliverables. The dates of key milestones and deliverables will be determined from this meeting.

March 31, 2017: Quarterly report due.

June 30, 2017: Quarterly report due.

June 30, 2017: Interim Presentation must be done by this date.

September 30, 2017: Quarterly report due.

October 31, 2017: Draft final report, draft summary report, draft maps and draft port brochures are due. A technical presentation may be requested.

November 30, 2017: Final report, final summary report, final maps and final port brochures are due.

December 31, 2017: Final Invoice due.

(For report templates and a standard form see:
www.modot.org/services/OR/orTemplates.htm.)

Quarterly Reports: Quarterly reports should be submitted throughout the project on the last day of March, June, September and December. The quarterly reports are not intended to replace any additional correspondence between the research team and MoDOT needed to keep the project moving.

Interim Presentation: An Interim presentation shall be scheduled near the mid-point of the project to update MoDOT on the progress and the direction of the project. This is in addition to the necessary communication between the Principal Investigator(s) and MoDOT contacts throughout the project. The purpose of the interim presentation is to evaluate the progress and determine if any mid-project corrections are necessary.

Draft Documents: A draft of the final report, summary report, port brochures and maps shall be submitted to MoDOT approximately 1 month prior to the final report. These drafts should be final products except revisions based on MoDOT's review.

Final Documents: The final report, summary report, port brochures and maps shall be due approximately one month before the end of the contract. This is to allow all billing to be completed prior to the end of the project.

SECTION (2): SCOPE OF WORK

(A) Services: The Offeror shall perform an economic impact study for the ports listed within the RFP.

(B) Specific Requirements: The Offeror will provide to Construction and Materials five (5) paper copies – or an electronic copy – of a program proposal which will help bring the project to its successful completion. Electronic proposals are encouraged.

Project budget is not to exceed \$350,000.

The task descriptions below are intended to provide guidance in development of the research. MoDOT is seeking the input of proposers to determine the best strategies to accomplish the research objectives.

Task 1

Work Plan

A work plan will be developed which details implementation of the following tasks as well as the resources and schedule required to carry them out.

Task 2

Literature Review

Review existing literature and practices for quantifying benefits of freight movement and ports. Identify methods to calculate return on investment for individual ports as well as the system as a whole.

Task 3

Individual Port Assessments

Investigate the goods that move through each port including their original starting place and final destination. Develop a map of each ports “reach” within Missouri, the US, and internationally. Calculate direct, indirect and induced impacts the port has on the local economy and determine the increase in benefits with increased infrastructure investment. Impacts include but should not be limited to: number of jobs and salary, tonnage of cargo, benefit to the Missouri economy, and cost savings to the product owner when choosing shipping as opposed to other methods of delivery. Care should be taken to maintain confidentiality with the ports and work with them to determine what information can be published in the final documents.

Task 4

Statewide Impact

Calculate the statewide impact ports have to the Missouri economy as a whole. Develop a cost/benefit analysis of public investment in ports.

Task 5

Impact on Rail and Truck Freight Rates

Determine the impact on rail and truck freight rates when suppliers have the option of using ports and barge.

Task 6

Deliverables

A final report, summary report, port brochures and maps shall be prepared.

(C) Administration of Program: The Offeror will consult MHTC's representative regarding any concerns involved with the administration of the services provided pursuant to this RFP.
