SECTION (1):
GENERAL DESCRIPTION AND BACKGROUND

- (A) **Request for Proposal:** This document constitutes a RFP from qualified organizations to provide a performance evaluation of traffic operation and safety for the Diverging Diamond Interchange (DDI) at the intersection of I-44 and Route 13 in Springfield, MO. These services will be provided for MHTC and MoDOT.
- (B) **Background:** With its unique design of reducing conflict points and eliminating left-turn phasing, a DDI is believed to have the benefits of increasing traffic capacity and improving safety. Simulation studies have shown that properly designed and adopted DDIs have considerable safety and operational benefits compared with properly designed conventional diamond interchanges: less delay, fewer stops, reduced stop times, shorter queue lengths, and fewer and less severe crashes.

After the DDI (I-44 & Route 13) went into full operation on August 25, 2009, there have been fewer crashes reported and most local residents, especially daily commuters, have expressed positive perceptions of this innovative interchange design. Due to the fact that this DDI is the first of this kind in the nation and no actual studies have been done, a thorough evaluation study will provide documentation of the DDI's safety and operational improvement. It is also expected that the results of this study will provide MoDOT with guidance on decision making for DDI's future applications.

- (C) **Fiscal Year:** The fiscal year runs from July 1 to June 30.
- (D) **Contract Period:** The project contract period will begin the date the agreement is executed by the MHTC and end **January 17, 2011** unless otherwise agreed to by the parties.

- (E) **RFP Schedule of Events:** The following RFP Schedule of Events represents MoDOT's best estimate of the schedule that shall be followed. Unless otherwise specified, the time of day for the following events shall be between 7:30 am and 4:00 pm, CST. MoDOT reserves the right at its sole discretion to adjust this schedule, as it deems necessary.

Schedule of Events
MoDOT posts the RFP on December 22, 2009 to the research website: http://www.modot.mo.gov/services/OR/orRFP.htm
Written comments and/or questions must be postmarked and mailed to the Contract Administrator at 2217 St Mary's Blvd., West, PO Box 270, Jefferson City MO 65109 or faxed to 573-526-4324 or submitted electronically to Karmen.Stockman@modot.mo.gov by January 7, 2010 .
MoDOT will post the responses to written comments and/or questions by January 20, 2010 on the research website: http://www.modot.mo.gov/services/OR/orRFP.htm .
Deadline for proposal submission is Midnight CST on February 1, 2010 . Please see the Introduction for specific mailing and electronic addresses.
MoDOT will notify the preferred proposal Offeror by February 12, 2010 .
The proposed contract end date will be January, 2011 unless the parties agree otherwise.
